

Mactech Inspection Ltd is a specialist supplier of sub contract personnel for construction, inspection and engineering activities as well as associated quality and NDT inspection services to the energy sectors worldwide. We focus extensively on Power, Nuclear, Oil, Gas, Renewables, Marine and Offshore.

Senior Management is committed to ensuring compliance with all relevant statutory and legal requirements and Approved Codes of Practice.

We are also committed to providing a professional, efficient and quality service which meets all of the requirements of our clients and customers.

Our commitment to providing a service of the highest standard shall be achieved through:

- Establishing and maintaining a Quality Management System (QMS).
- Listening to clients and customer needs and expectations.
- Ongoing training and development of our employees.
- Continual improvement through measurement and review.
- Profitable growth and development of Mactech Inspection Limited.
- Adopting a "Right First Time" attitude and strive to be "The Best in Our Field".
- Clear Leadership.
- The provision of adequate resource and equipment.
- Clearly defined roles and responsibilities within our QMS.
- Support of the local community.

Senior Management are committed to and have ultimate responsibility for establishing and implementing the Quality Management System; they shall ensure through training, instruction and supervision that Quality is the aim of all employees.

Mactech Inspection Ltd has a Policy of continual improvement and setting of Quality Objectives and Targets in line with the framework laid down within ISO 9001:2008, and supporting the overall Mactech Inspection Ltd company strategy.

Risks will be reviewed and opportunities identified through all process stages from contract review to project close out.

The Mactech Inspection Ltd Quality Assurance Policy shall be communicated to all employees; it shall also be made available to external interested parties upon request, subject to approval from Senior Management.

The policy is reviewed on a periodic basis. The updated policy will be communicated to all employees and made available to Clients upon request.
